SUMMARY

Full-stack developer with 7+ years of experience building web applications with Node.js, React/Next.js and PostgreSQL, extended into mobile, with two React Native apps live on the App Store, and AI-integrated products. Built an ERP system for a Swedish company, led a team of 3 at REDQ, and for the past two years has delivered payment integrations, cloud infrastructure and AI/computer-vision systems for independent clients.

SKILLS

Backend: Node.js, TypeScript, JavaScript, Express, NestJS, GraphQL (GraphQL Yoga), REST APIs, Python, FastAPI
Frontend & Mobile: React, Next.js, Redux, Tailwind CSS, HTML5, CSS3/SCSS, React Native, Expo (Router, EAS), Kotlin native modules
Databases: PostgreSQL, MySQL, MongoDB (Mongoose), Prisma, pgvector
Cloud & DevOps: AWS (EC2, Lightsail, Elastic Beanstalk, Amplify, RDS, VPC), DigitalOcean, Linode, Vercel, Heroku
Integrations: Stripe, Stripe Connect, Coinbase Commerce, Twilio, Resend, OpenAI and Claude APIs
Testing: Jest, Cypress, Playwright

EXPERIENCE

Freelance Full-Stack & Mobile Developer — 2024 – Present

Self-employed · Remote

- Built a multi-signal identity recognition system combining face recognition, bib-number OCR and pgvector similarity search, served through a Python/FastAPI backend.
- Integrated Coinbase Commerce crypto payments into an existing Next.js + Stripe application, running alongside the card-payment flow.
- Configured AWS Amplify with RDS over SSL/VPC and set up production platforms for clients (Stripe Connect, Twilio, Resend, DigitalOcean, Google Play Console, App Store Connect, Expo EAS), fixed email deliverability (SPF/DKIM, SMTP, SSL) and wrote handover guides for non-technical owners.

Full-Stack Web Developer — REDQ Technologies Ltd — 2024

Dhaka, Bangladesh

- Led a team of 3 developers building a marketing automation tool, from planning through delivery.
- Developed an AI-powered social media posting platform that uses LLM APIs to generate and publish content.
- Refactored a legacy codebase, improving application performance by 30%.

Full-Stack Web Developer — Ingenjörsautomation AB — 2021 – 2024

Sweden · Remote

- Built an ERP system that cut report generation time by 40%.
- Developed a dynamic content management application with Node.js, React and PostgreSQL.
- Built REST and GraphQL APIs with Node.js, Express and GraphQL Yoga, improving performance, scalability and security.

Junior Frontend Developer — Code Eating Ants — 2018 – 2020

Dhaka, Bangladesh

- Built and maintained websites and interactive prototypes (HTML, CSS, JavaScript, jQuery), handled complex UI components, and improved page performance and usability.
